

DESIGNING

Canva

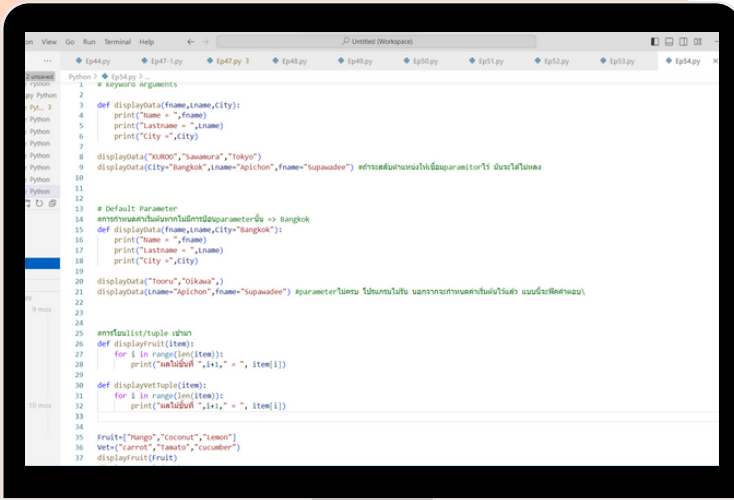

I actually use canva to design a picture and decorate it in my style.

CODING

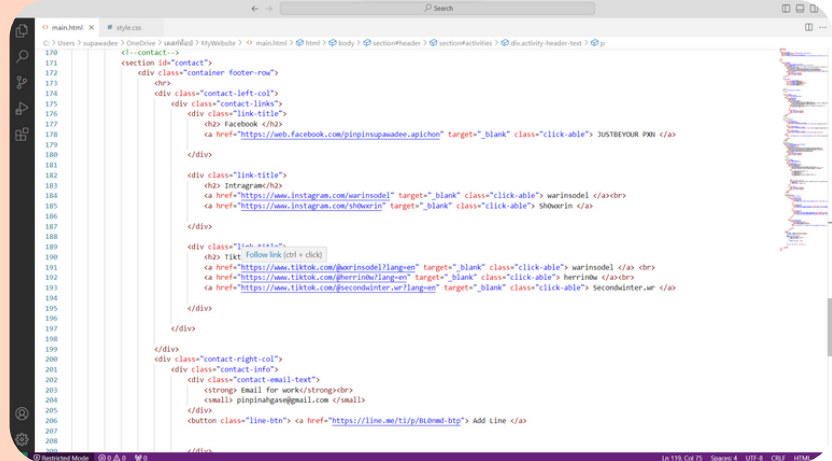

Python Language

Since 2022, I was started to learn basic programming, which I chose python, on youtube by myself.

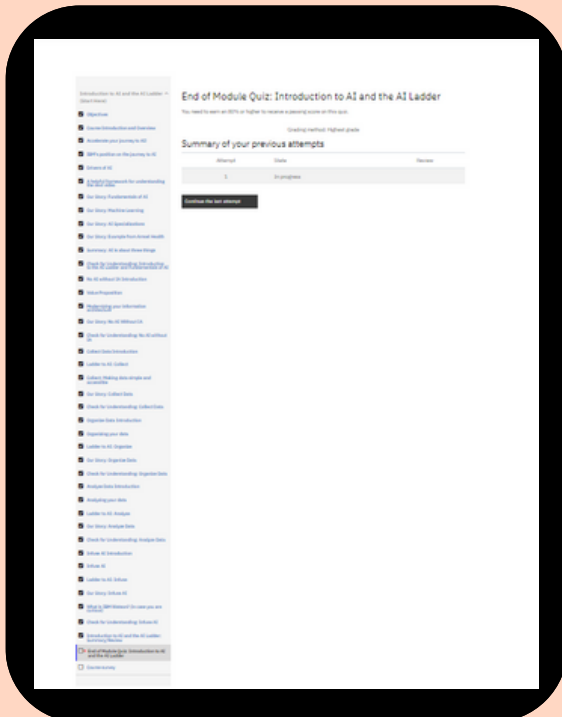

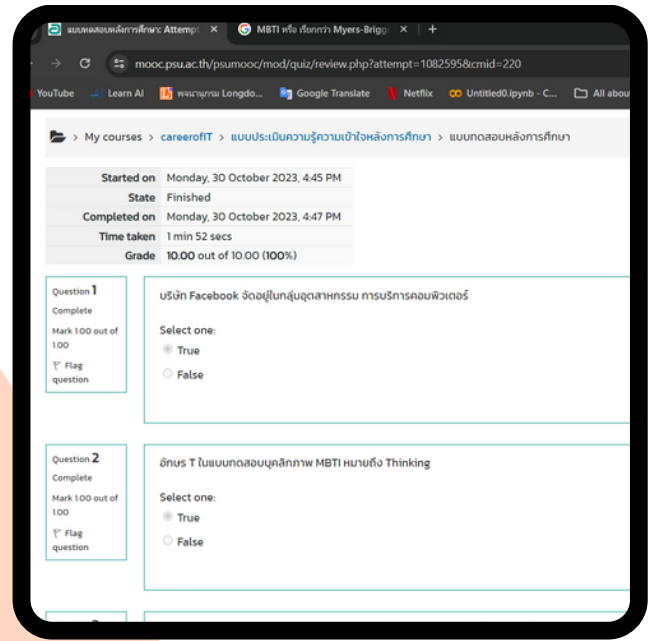

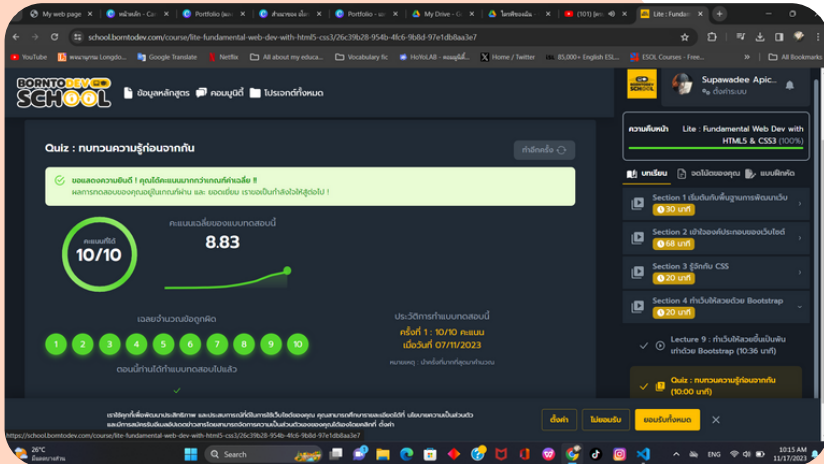

HTML & CSS Languages

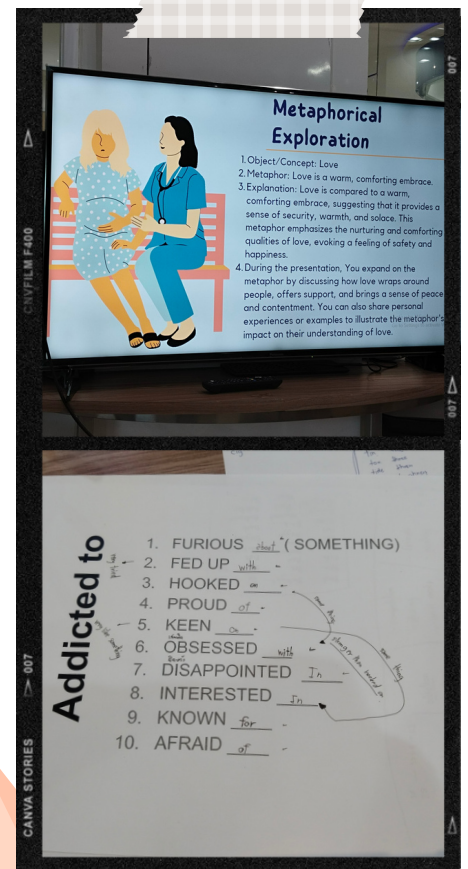

**I am interested in building a website.
That's why I decide to learn HTML to make a
structure of website and CSS to decorate it.**

ONLINE COURSES

TUTORIAL COURSE

- Metaphorical Exploration**
1. Object/Concept: Love
 2. Metaphor: Love is a warm, comforting embrace.
 3. Explanation: Love is compared to a warm, comforting embrace, suggesting that it provides a sense of security, warmth, and solace. This metaphor emphasizes the nurturing and comforting qualities of love, evoking a feeling of safety and happiness.
 4. During the presentation, You expand on the metaphor by discussing how love wraps around people, offers support, and brings a sense of peace and contentment. You can also share personal experiences or examples to illustrate the metaphor's impact on their understanding of love.

WALL STREET ENGLISH

Since March 2022 I have been studying at Wall Street English. At first, I started at level 3, which considers as a beginner level. But now, I am in level 13 that considers to be an advanced level. As the result, I am significantly able to converse, to write, to listen, and to read in high grade speech.
